HRDF Claimable
Introduction

As a labour-intensive industry, the on-going labour issues in oil palm plantations have been significantly impacting the Malaysian oil palm industry. With the rising level of urbanisation and workforce challenges due to rural depopulation, there is an urgent need for innovative solution in order to ensure the industry stay relevant. Mechanisation not only helps to reduce labour utilisation, but also facilitates the work process, increases productivity and consequently reduces production costs. Mechanisation is proven to be the best long-term solution for the sustainability of the industry.

In view of the importance of labour and mechanisation in spearheading the development of the industry, the Malaysian Palm Oil Board (MPOB) will be organising a seminar on Labour and Mechanisation in Plantations (LAMP). This seminar will address issues on the current labour situation and adoption of mechanisation in the oil palm plantation sector in Malaysia. This seminar is one of the efforts by MPOB in assisting the plantation companies in combating issues in the plantations and maneuvering their work process in order to increase their productivity.

In-line with the theme, ‘Fuellng Mechanisation, Boosting Labour Productivity’, LAMP Seminar 2020 will expose participants to the latest technologies in increasing labour productivity. The seminar will also provide a platform for the industry to share information and views on the current labour and mechanisation issues as well as to enhance the networking activities among industry players.

Objectives

- Disseminate and share information on the policies, current scenario, issues and challenges on labour utilisation in the oil palm plantation sector in Malaysia.
- Share knowledge and experiences for the betterment of the oil palm industry.
- Expose participants to the latest technologies.
- Promote the adoption of technologies and machineries in plantations.
- Disseminate information on investment opportunities and incentive schemes.
- Identify R&D needs and priorities in plantations.

Focus Areas

- Labour scenario
- Agriculture 4.0
- R&D and innovations
- Adoption of technologies
- GIS/GPS technologies
- Green technologies
- Human resource development

Registration

A registration fee of RM1400 entitles the participant for full attendance of the Seminar, Seminar materials, refreshments and lunches during the Seminar.

Students are entitled for a 50% discount for the seminar fee. A certified copy of the student card is required for registration.

Registration form with payment should reach the organiser before 15 October 2020.

Who Should Attend

Chief executive officer (CEO), executives, managers, planters, researchers, scientists, consultants, academician, engineers, economists, policy makers, entrepreneurs, manufacturers and suppliers of machinery and service providers and all other relevant organisations involved in the oil palm and palm oil industry.

Call for Papers

Oral and poster presenters are invited for presentation at the Seminar.

Oral paper presenter : Free registration
Poster presenter : RM700

Important deadlines for authors of papers:

<table>
<thead>
<tr>
<th>Date</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>22 May 2020</td>
<td>Submission of abstract</td>
</tr>
<tr>
<td>12 June 2020</td>
<td>Notification of acceptance</td>
</tr>
<tr>
<td>24 July 2020</td>
<td>Submission of extended abstract (oral and poster)</td>
</tr>
</tbody>
</table>

Exhibition

Exhibition booths are available for booking. Machines and product suppliers and service providers are invited to participate.

Indoor Booth Rates:
3 m x 3 m size : RM3500/booth

Outdoor display for heavy machinery:
6 m x 3 m space : RM2000/booth
Programme Highlights

Tuesday, 20 October 2020
Lead Paper: Insights on Malaysian Labour and Mechanisation Adoption in Enhancing Productivity

Live Demo of Machineries
Session I: Boosting Productivity
Session II: Enabling New Technologies

Wednesday, 21 October 2020
Session III: Fuelling Innovations
Session IV: Managing Human Resources
Panel Discussion: Issues and Challenges in Oil Palm Plantations and the Way Forward
